FEDERALS BACK A MILE IN MEXICO CITY FIGHT

Ambassador Wilson Reports Rebel Victory, and Madero Announces That He Is Ready to Give Way to a New President.

MANY SOLDIERS KILLED NEAR AMERICAN EMBASSY.

Taft Still Opposes Intervention, but Battleships and Troops Are Hurrying to Points Near Mexico.

Censored Cable Despatches from Mexico.

MEXICO CITY, Feb. 18.—President Madero has agreed in principle to the appointment of a President ad Interim.

This was announced on the authority of the Mexican Foreign Minister, Senor Lascurain.

The news, which came out of the National Palace, became known throughout the city in the early afternoon. The position of the Government is weakening and the Federal troops are apparently becoming demoralized.

Desultory cannon fire from both the rebel and Federal positions was in progress at noon. The belief was then gaining ground that a settlement of some kind would be reached to-day.

The situation of the Government forces became so critical that one strong detachment of Federal troops retired from the capital and marched second explosion, which might have been dealt a body blow to the private hack-caused by the collapse of the roof, and stand system. It was found shortly after daylight that the rebels under Felix. Diaz had materially extended their lines and were threatening some of the Federal positions.

Silas F. Gilmore, an elderly American, who has charge of important mechanical works here, was wounded by three bullets in the right forearm as he was walking along Colima street. He got into the middle of a skirmish between detachments of rebels and Federals

Firing with heavy guns went on practically the whole night rom both Federal and rebel positions. In the total darkness, however, was impossible to ascertain whether any advantage had been gained

Just about 10 o'clock the firing became hot again and the big guns of the rebels at the Arsenal were brought into play on the National Palace with fierce fire. The palace was threatened with an attack of rebels who had
